

## THE WAGZ™ SERVE SMART FEEDER

DATA-DRIVEN NUTRITION FOR YOUR UNIQUE DOG

Lots of feeders claim to be “smart”, but most just spit out kibble around an owner’s best guess. The Wagz™ dog nerds know each dog requires precise nutrition so we built the only feeder that uses a proprietary nutritional intelligence platform to recommend and deliver the right amount based on breed, environment and real-time activity levels. Pair the Serve Feeder with the Wagz™ Explore Collar and automatically deliver the right amount, to the right dog at the right time—right from your smartphone!

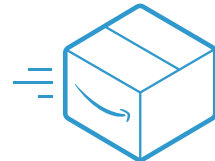

### FEED THEM WHEN YOU'RE AWAY

Set up automatic serving times for one or multiple dogs.

### SERVE UP THE RIGHT AMOUNT

Avoid under and overfeeding with data-driven portioning.

### NEVER RUN OUT OF FOOD

Get more shipped to your door with integrated Amazon Dash Replenishment.

THE FIRST FULLY AUTONOMOUS FEEDER  
Re-orders for you using Amazon Dash Replenishment.
